

Broadband and Digital Equity Services

Tidal Basin is a full-service program and grants management firm that supports a wide variety of federal and state-funded community development and infrastructure programs – such as broadband initiatives – from plan development and program design to implementation and grant closeout.

Tidal Basin excels in delivering strategic guidance and program management for broadband initiatives. Our team's extensive experience managing broadband projects positions us as the ideal partner for successful grant programs, ensuring efficient management from development to closeout.

We have more than 12 years of broadband-specific partnerships with local, state, and federal governments, complementing the

efforts of state broadband offices. Our team has assisted with the development and administration of state and federally funded programs, including the IIJA Broadband Equity, Access, and Deployment (BEAD) and Digital Equity Programs, the Coronavirus Aid, Relief, and Economic Security (CARES) Act, American Rescue Plan Act (ARPA) Capital Projects Fund (CPF), and state-funded programs to meet the states' connectivity objectives and goals.

We have experience with the following funding programs:

BEAD Program

Capital Projects
Fund

State and Local
Fiscal Recovery
Funds

CARES Act

Digital Equity Act
(Planning)

Housing

Community
Development

Infrastructure

Broadband and Digital Equity Services

Tidal Basin specializes in federal grants management, program design, and large-scale implementation, fostering collaboration with states and municipalities to incorporate best practices into federally funded programs. We strive to maximize the impact of dollars by ensuring efficient program management. Tidal Basin is adept at assisting states and other entities seeking reimbursement for plan development and technical assistance, offering valuable support in navigating the complexities of grant processes.

Our broadband services include:

- ARPA, Capital Project Fund Implementation, BEAD, and Digital Equity Plan Development
- Strategic Assessments for Broadband, Assets, Digital Equity and Future Needs
- Policy and Programmatic Analysis
- Design of Broadband Programs and Administration Tools
- GIS Mapping
- Broadband Technical Assistance and Engineering
- Grant Application Creation
- Community Engagement
- Communication and Outreach Strategies, Emphasizing Workforce and Economic Development
- Program Administration and Oversight
- Subrecipient Management and Monitoring
- Technical Assistance
- Federal Grant Compliance and Reporting Support
- Monitoring and Reporting Compliance
- Expertise in Federal Funding Requirements
- Grants Closeout

We have the expertise to help your state succeed in connecting households and communities through skilled management of grants and strategic digital connectivity deployment initiatives.
