## What Our Clients Say

*“I am happy we hired Tidal Basin to do the heavy lifting in getting our Continuity of Operations Plan developed. ... They are true subject matter experts which allowed us to get a proven product while uncovering and addressing the complexities of our large operation. This COOP is now the foundation of our recovery operations following large and small continuity events.”*

— Deborah S. Helton  
Emergency Management Administrator  
Dallas/Fort Worth International Airport

*“As the project manager of a large scale, regional table top exercise, my experience with Tidal Basin was excellent. The project had several unpredicted challenges. These challenges were addressed by Tidal Basin personnel without disrupting my tight time line. Their experience and professionalism made my job much easier. I would highly recommend Tidal Basin to any future project.”*

— Captain Felix Vara  
METRO Transit Police  
Houston, TX

## Who We Are and Why We Serve

Tidal Basin Government Consulting is a full service, emergency management company providing preparedness, response, recovery and mitigation consulting services, with a dedicated team focused on assisting transportation clients to facilitate their response and recovery and to enhance their resiliency. Drawing from our unparalleled experience, our expert staff provides customized approaches to our clients' needs to deliver outcome driven results.

## The Tidal Basin Difference

Tidal Basin understands the challenges facing the transportation sector in preparing for, responding to, recovering from and mitigating against emergencies and disasters. For decades, Tidal Basin's team of experts has assisted and advocated for hundreds of clients to prepare for and recover from some of the world's worst disasters.

## Maximizing Financial Recovery

Tidal Basin is your partner in maximizing your financial recovery — whether through property insurance or FEMA Public Assistance reimbursement, or both. Tidal Basin successfully navigates clients through the complicated disaster recovery process. Our Total Solution<sup>®</sup> services unites the property insurance and FEMA portions of your disaster recovery into one financial recovery strategy to help you to recover all of your eligible costs. Our unwavering client advocacy **helps you maximize all the funding you are entitled to receive** from both your insurance policy and FEMA grant programs.

## Preparation

Tidal Basin is the premier provider of Comprehensive Transportation Emergency Management and Preparedness consulting services with extensive experience in continuity of operations, preparedness, response and recovery. Our team of practitioners has supported Airport and Rail Operations, Transit and Transportation Agencies.

Our Capabilities cover all areas of Preparedness and Emergency Management Needs, including:

- Strategic all-hazards or hazard-specific emergency plan development and review;
- Program gap-analysis;
- Exercise facilitation, evaluation and After-Action Review reporting;
- Emergency Operations Center management, training and response;
- Incident Command System Training; and
- Continuity of Operations/Business Continuity Planning.

## Regulatory Understanding

Whether ensuring compliance with the Code of Federal Regulations, Federal Aviation Administration circulars and rules, or emerging regulations and technologies, Tidal Basin will help you to navigate the complicated and ever-changing regulatory landscape, incorporating best practices and lessons learned.

## Enhancing Resiliency

Tidal Basin assists clients to enhance the resiliency of their organization so they can continue their operations with minimal disruption or impact, by conducting risk assessments to identify threats and vulnerabilities to outline mitigation strategies to help them to be more resilient.

By applying strategies within FEMA's Hazard Mitigation Assistance Programs both before and during the disaster, Tidal Basin assists clients throughout the process to build resiliency to disasters.
