

Capability Statement

Serving the Nation

When a disaster strikes, communities need to be empowered to facilitate their own recovery and work to enhance future resiliency. Since 1985, Tidal Basin's staff has assisted communities with all phases of emergency management, both pre- and post-event.

The Tidal Basin Difference

Tidal Basin is acutely aware of the challenges businesses and governments alike face in preparing for, responding to, recovering from, and mitigating against emergencies and events, having led multiple emergency management programs for:

- States and local jurisdictions
- Federal Government
- Not-for-profits
- Private sector clients

Tidal Basin provides the most comprehensive service offerings in the emergency management field.

What Our Clients Say

"I am happy we hired Tidal Basin to do the heavy lifting in getting our Continuity of Operations Plan developed. ... They are true subject matter experts which allowed us to get a proven product while uncovering and addressing the complexities of our large operation. This COOP is now the foundation of our recovery operations following large and small continuity events."

— Deborah S. Helton
Emergency Management Administrator
Dallas/Fort Worth International Airport

"... Your team's efforts, dedication, professionalism, and, most of all, responsiveness to our complex needs has made a huge and positive impact on our efforts to recover from the disaster."

— John P. Demoleas
VP of Development and External Affairs
North Shore LIJ (Northwell Health)
Staten Island University Hospital

A RISING PHOENIX HOLDINGS COMPANY

Preparedness

Tidal Basin's team of experts provides comprehensive solutions to prepare for and recover from natural and man-made hazards. Utilizing risk-based and whole-community perspective, our highly trained staff assists our clients in the development of effective:

- Planning
- Training
- Exercises
- Assessments

Tidal Basin's focus on strategic planning, gap analysis, and after-action reports help to outline the future and set goals for response and recovery capabilities.

Ready to Respond

Our experienced staff can support our clients in:

- Emergency Operations Centers (EOCs)
- Incident Command System (ICS)
- Departmental Operations Centers

Tidal Basin can provide 24-hour response time for many of our clients and has the capacity to mobilize an extensive cadre of field staff. Tidal Basin was able to provide over 12,000 response personnel to one client during the 2017 hurricane season.

Recovery

Tidal Basin's Total Solution® services unite the property insurance and FEMA portions of your disaster recovery into one financial recovery strategy. Successfully recovering all of your eligible costs requires a full understanding of how insurance and FEMA complement one another. No one understands this interaction better than our team. We know the proper way to prepare Project Worksheets and what you need to do to accurately track and account for all monies spent on the disaster. We deliver knowledge and experience together with unwavering client advocacy to help you maximize all the funding you are entitled to receive from both your insurance carrier and FEMA grant programs.

Support

When rebuilding begins, Tidal Basin helps communities establish and implement effective programs to support survivors and foster a comprehensive recovery.

Besides the FEMA Individual Assistance Program, our team of recovery experts are well versed in shaping and implementing recovery programs to include:

- Sheltering and Temporary Essential Power Program (STEP)
- Community Development Block Grant Program for Disaster Recovery (CDBG-DR)

Our unique ability to support governments and businesses alike in designing and implementing customized recovery programs for those impacted is unmatched.

Mitigation

Tidal Basin assists clients to enhance the overall resiliency of their organization and continue to serve their operations with minimal disruption or impact. Our staff is highly experienced in conducting risk assessments to identify threats and vulnerabilities, to outline mitigation strategies to help our clients to be more resilient.

Tidal Basin identifies and applies mitigation strategies within FEMA's Hazard Mitigation Assistance Programs to support our clients before, during and after a disaster.
