## PREPAREDNESS

Tidal Basin is the premier provider of comprehensive Transportation Emergency Management and Preparedness consulting services with extensive experience across the full emergency management continuum. Our team of experienced practitioners has supported Aeronautics, Rail and Transit, Departments of Motor Vehicles/Driver Services, and Highway at both the local and state capacity for Transportation Agencies.

Our Preparedness, Resiliency, and Emergency Management (PREM) team has decades of experience directly within transportation emergency management and have also contributed to national panels on best practices across all modes.

Our Capabilities cover all areas of Preparedness, Resilience and Emergency Management needs, including:

- + Strategic all-hazards or hazard-specific emergency plan development and review
- + Program gap-analysis
- + Exercise development, facilitation, evaluation and After-Action Review reporting
- + Emergency Operations Center management, training and response
- + Pandemic planning for transportation agencies
- + Threat and Hazard Identification and Risk Assessment (THIRA); Stakeholder Preparedness Review (SPR)
- + Identifying capability targets for transportation and critical infrastructure
- + Incident Command System Training
- + Continuity of Operations/Business Continuity Planning

## REGULATORY UNDERSTANDING

Whether ensuring compliance with the Code of Federal Regulations or emerging regulations and technologies across all modes, our team is well-versed in codes and policies across the Federal Aviation Administration (FAA), Federal Highway Administration (FHWA), and Federal Transit Administration (FTA). We also are members of associations that support each mode. Tidal Basin will help you to navigate the complicated and ever-changing regulatory landscape, incorporating national best practices and lessons learned specifically catered to aid your agency.

## ENHANCING RESILIENCY

Tidal Basin understands that resilience in transportation is critical and preparedness measures play a key role for the continuity of operations when an agency is impacted. Our team can assist in identifying threats, hazards, and vulnerabilities, and outline mitigation strategies to bolster resiliency for critical transportation. By applying strategies within FEMA's Hazard Mitigation Assistance Programs both before and during the disaster, Tidal Basin assists clients throughout the process to become more resilient to disasters.

## WHO WE'VE HELPED

- + John Wayne Airport - Orange County, CA
- + Washington Metropolitan Area Transit Authority (WMATA) - Washington, DC
- + Dallas/Forth Worth International Airport - Dallas, TX
- + The WAVE Transit System - Mobile, AL
